1. Sketch

With the initial sketch we understand if we are on the right track and what needs to be modified to align with your idea.

This step includes **2 variations**. Any further variation costs additional **€100** each.

2. Colors

With color tests, we understand which shades best convey the overall atmosphere and draw attention to the focal point.

This step includes **2 color variations**. Any further variation costs additional **€100** each.

3. Final Rendering

With some additional light effects and precise texture choices, the image comes to life and expresses its full potential. The final format is **high-resolution raster image (JPEG PNG, PSD)**.

No variations are included in this step. Any change will be quoted separately.
